| <b>GHCL Foundation</b><br><i>Rural Development Intern</i>                                                                                                                                                                                                                                                                                                                         | Nov 2024<br>Gir Somnath, Gujarat |
| <ul style="list-style-type: none"><li>Managed and pre-processed datasets for 500+ schools, ensuring 100% data integrity via systematic validation.</li><li>Utilized EDA to identify distribution patterns, optimizing logistics for rural development initiatives.</li><li>Automated reporting in Excel using Pivot Tables and Macros, reducing processing time by 25%.</li></ul> |                                  |

## PROJECTS

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>IPL Cricket Query Engine</b>   <i>SQL, PostgreSQL, ER Modeling, DBMS</i> <ul style="list-style-type: none"><li>Designed a normalized relational database covering IPL teams, players, matches, and season-wise statistics.</li><li>Enabled users to write custom SQL queries to retrieve player stats, match results, and team performance on demand.</li><li>Optimized queries and indexing strategy for fast retrieval across large historical match datasets.</li></ul> |
| <b>Smart Attendance &amp; Course Manager</b>   <i>Next.js, React.js, Node.js, PostgreSQL</i> <ul style="list-style-type: none"><li>Built a web app allowing students to mark attendance and manage course enrollment in real time.</li><li>Implemented add/drop course functionality with validation to prevent scheduling conflicts.</li><li>Developed an automated notification system alerting students about low attendance and course deadlines.</li></ul>               |
| <b>OOP-Based Banking System</b>   <i>C++, Object-Oriented Programming</i> <ul style="list-style-type: none"><li>Designed an object-oriented banking system simulating deposits, withdrawals, and fund transfers.</li><li>Implemented account management, transaction history, and interest calculation using core OOP principles.</li><li>Applied encapsulation and inheritance to build a modular, extensible system architecture.</li></ul>                                 |

## TECHNICAL SKILLS

**Languages:** Python, SQL, C++, C, HTML, CSS, JavaScript  
**Tools & Frameworks:** Next.js, React.js, Node.js  
**Soft Skills:** Analytical Problem Solving, High-Intensity Discipline, Detail-Oriented, Teamwork  
**Areas of Interest:** Machine Learning, Predictive Analytics  
**CS Fundamentals:** Data Structures & Algorithms, DBMS, OOPS, Operating Systems

## ACHIEVEMENTS & CODING EXCELLENCE

Secured All-Gujarat Rank 267 in Class XII Science stream (GSEB Board) with 99 marks in Mathematics.
